PC Repair. In Minutes.

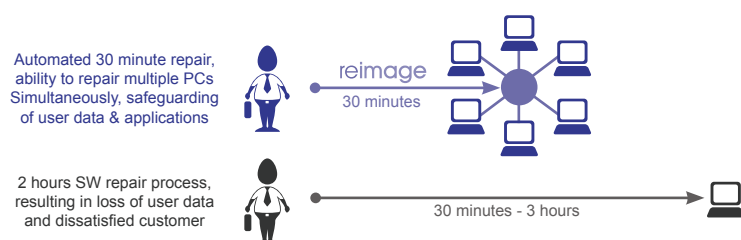

The Reimage.com Pop Quiz

One question we bet you can't answer

Do you know of a single PC repair technology that:

- **Revives** a totally dead operating system?
- Keeps user **data and installed applications** intact?
- Works with no prior **installation**?
- Does all this in an average of **30 minutes**?
- Terminates spyware, adware and malware while re-energizing performance.

Meet Reimage: PC Repair, In Minutes. Reimage is the only technology available that safeguards user data, provides online PC repair automation in minutes, and requires no set-up.

Reimage's patent-pending technology does more than create data-protected PC repair automation in minutes – Reimage provides a complete PC repair experience for IT technicians across industries. Reimage's versatility stems from being online, allowing unlimited, simultaneous repairs of unprecedented quality – not to mention access to our web repository of over 8 million spare systems files and registry objects. Unique to Reimage is a free, downloadable boot CD, which allows for the repair of a completely dead system. Additionally, Reimage takes pride in its customer-first philosophy, with a proactive service strategy that guarantees complete customer satisfaction and general support for PC repair issues.

"A great idea... that could revolutionize the computer repair industry. I thought they'd never be able to build it... but, lo and behold they did!"
~Chip Reeves, CEO

"Reimage works like magic to solve problems with XP"
~Frank Ohlhorst, Executive Technology Editor

"Reimage: The Domino's Pizza of PC repair?"
~ Keith Shaw, Programming Director at Network World

"An amazing tool for Computer Techs"
~ Bryce Whitty, Founder of Technibble.com
